1. Building Evacuation

The building should be evacuated whenever remaining in the building becomes dangerous or upon the request of government authorities.

- When evacuating persons with disabilities, ask how you can help before giving assistance. Ask how he or she can best be assisted or moved, and whether there are any special considerations or items that need to come with the person.
- Get the attention of a person with a hearing disability by touch and eye contact. Clearly state the problem. Gesture and pointing are helpful, but be prepared to write a brief statement if the person does not seem to understand.
- Do not grasp a visually impaired person's arm. Ask if he or she would like to hold onto your arm as you exit, especially if there is debris or a crowd.

2. Fire Emergency

At the first indication of smoke or flame, investigate the situation to determine the location and extent of the fire.

- Call 911
- Evacuate the building, checking the restrooms
- Close the doors and windows if it can be done safely
- Wait outside for the fire department
- Do not re-enter the building until the Fire Department says it is safe to return.
- Call the library director

3. Health Emergency

Staff member should exercise caution when administering first aid, even of a minor nature, because of the safety or the injured individual and the potential liability of the staff member. Without specialized training, it is not advisable for the staff to undertake more than keeping the sick of injured patron comfortable until medical help can arrive. Staff member should use their own judgment as to what action is prudent and reasonable. **No medication**, including aspirin, should ever be dispensed to the public.

- Call 911
- Call the library director
- Call parent/guardian it's a minor
- Fill out an accident report
- Call the library director
4. Snow Emergency

Closings are at the library director’s discretion or the board president. If he/she is unavailable the staff should use their own judgment.

5. Severe Storms

- Close all exterior doors and windows
- Shut down the computers
- Prepare for a power outage

6. Tornadoes

- Do not leave the building. Shut all exterior windows and doors if there is time.
- Go to the basement or an interior room.
- Prepare for a power outage

7. Flooding

- Shut off the water valve or the electric to the pump
- Call the plumber
