The New York Library Association strongly supports S6511 (Ryan)/A7021(Jean-Pierre).

These technical amendments are funding neutral and replace outdated provisions with new language, to consolidate and modernize programs and to streamline planning and reporting requirements to improve efficiency.

The bill has support from the Board of Regents, the State Education Department, as well as the full library community.

As such, we urge members of the Library Committee to vote in favor.

If you have any questions, please contact Briana McNamee, Director of Government Relations & Advocacy at 518-432-6952 x102.
