# Work from almost anywhere.

## Home Office Internet

- Professional-grade 5G/4G LTE fixed wireless access
- A vendor with national scope
- Included content filtering blocks non-business applications

## T-Mobile Collaborate

- AI-powered cloud communication platform
- Calling, messaging, and video conferencing across virtually any device
- Fast setup and hassle-free deployment

Not FedRAMP authorized

## Government Unlimited Plans

- Plans that deliver unprecedented value, with 5G speeds and unlimited data
- Simple, fixed monthly costs with no overage fees
- Experience fast 5G in more places

Enabled by **America's largest and fastest 5G network.**

During congestion, heavy data users (>50GB/mo. for most plans) and Home Office Internet users may notice lower speeds than other customers; see plan for details.

**5G:** Opensignal Awards - USA: 5G User Experience Report January 2021, based on independent analysis of average speeds from mobile measurements recorded during the period September 16 - December 14, 2020 © 2021 Opensignal Limited. Capable device required; coverage not available in some areas. Some uses may require certain plan or feature; see T-Mobile.com. **Home Office Internet:** During congestion, customers on this plan may notice speeds lower than other customers due to data prioritization. Not available in all areas. Qualifying business or government account and credit approval required. For use only with T-Mobile Gateway for in-home use at location provided at activation. If canceling service, return gateway or pay up to \$370. **Video** streaming resolution depends on available speeds. For best performance, leave video streaming applications at their default resolution setting. Not compatible with some live TV streaming services. **Built-in security and productivity filtering** blocks select content. See T-Mobile.com/filtering for details. **Government Unlimited:** U.S. roaming and on-network data allotments differ: includes 200MB roaming. Unlimited talk & text features for direct communications between 2 people; others (e.g., conference & chat lines, etc.) may cost extra. Unlimited high-speed data US only. Not available for hotspots and some other data-first devices. **Video streams** at up to 1.5Mbps. Optimization may affect speed of video downloads; does not apply to video uploads. For best performance, leave any video streaming applications at their default automatic resolution setting. **Tethering:** 11GB high-speed data then unlimited on our network at max 3G speeds. For the small fraction of customers using >50GB/mo., primary data usage must be on smartphone. Smartphone usage is prioritized over Mobile Hotspot (tethering) usage, which may result in higher speeds for data used on smartphone. **Coverage** not available in some areas. **Network Management:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users. See T-Mobile.com/OpenInternet for details. **See Terms and Conditions** at www.T-Mobile.com for additional information.
